**FOR IMMEDIATE RELEASE**

***XStreamHD*<sup>TM</sup> Showcases Revolutionary Whole-Home HD Entertainment Solution at the Satellite 2009 Show**

*Emerging leader continues to successfully test and advance the development of its groundbreaking technology*

**MCLEAN, VA – March 25, 2009** -- *XStreamHD*, an emerging leader in the delivery and distribution of Full 1080p HD entertainment direct to the home, via satellite, will be giving live demonstrations of the *XStreamHD* whole-home solution at the Echostar booth # 597 at the Satellite 2009 show. These demonstrations will feature content accessible through *XStreamHD*'s advanced graphical user interface (GUI).

The unique transport system, testing on the AMC-16 satellite at 85 degrees west longitude, enables *XStreamHD* to deliver Full HD movies, music, and games from the content providers directly to subscriber homes throughout North America in exactly the format that the content was meant to be viewed and listened to.

"We are the first provider of Blu-ray quality Full HD (1080p) video and up to 7.1 channels of lossless DTS-HD Master Audio<sup>TM</sup> unlocking existing FSS (Fixed Satellite Service) capacity," said George Gonzalez, founder and CEO of *XStreamHD*. "Our advanced technology enables consumers to experience in studio master quality content, just as the studios intended for them to be enjoyed while enabling consumers the ability to utilize their home entertainment systems to their maximum capabilities."

(more)

Recent tests of the *XStreamHD* unique transport system validates the ability of the network to deliver Full HD (1080p), Blu-ray quality video with up to 7.1 lossless channels of DTS-HD Master Audio™ directly to consumers' homes. When fully rolled-out, XStreamHD will offer its customers unparalleled access to movies, HDTV, music and electronic games.

*XStreamHD* will be showcasing its unique transport system and consumer platform at the 2009 Satellite Show in Washington, DC at the Echostar Booth #597.

**About *XStreamHD***

*XStreamHD* is leading the HD revolution, setting a new standard for the delivery and distribution of Full HD entertainment throughout the home. *XStreamHD* provides the first-ever transport network to deliver high-definition movies and music directly to the home via satellite – offering Full HD (1080p) video and up to 7.1 channels of lossless audio. With *XStreamHD*, consumers can build a customized, unique, and unparalleled in-home entertainment network and enjoy the content they want most—including movies, music, electronic games, broadcast HDTV, and more—when it's most convenient, anywhere in the home, and at the quality today's home theaters were designed to support. *XStreamHD* is based in McLean, Virginia.
