

multi-room tv

Watch different programs on multiple TVs...at the same time! We can do it for you with technology from ChannelPlus®. Ask about multi-room TV for your home.

MODULATORS MAKE LIFE EASIER

If you're anything like the average American, you already own several TVs, multiple DVD players and a couple of receivers. The challenge comes in how to get this signal there and that signal here while still making everyone in the house happy. Behold, the multi-channel video modulator. Read on...

*Diagram shown using ChannelPlus 3025 configuration. Your set-up may be different depending on modulator purchased and your equipment.

MULTI-ROOM TV FAQ

Just how do modulators work?

Multi-channel video modulators have multiple audio and video inputs and one RF output. A/V outputs on a DVD player, VCR or satellite receiver are connected to the A/V inputs on the modulator. The modulator is then programmed to broadcast the signals on a certain frequency. That RF broadcast is then received by the connected TV. When the TV is tuned to the programmed channel, the A/V signal of the source device is accessed. For example, the DBS satellite system is programmed to broadcast on channel 11. Turn the bedroom TV to channel 11 and you're watching what is being broadcast on the DBS satellite system. Add Emitters and Targets to control the devices, like the DVD player or DBS satellite system, and you're good to go.

The diagram above shows one example of how a modulator can work but everyone's home theater set-up is different. There are many different ChannelPlus® products available. We can find the right set-up for you.

WATCH YOUR FAVORITES!

He wants to watch sports. She wants to rent a movie. Sound familiar? Easily solve the problem with the ChannelPlus® 3025 modulator. Broadcast different sources (i.e., satellite receiver and DVD player) on television channels that you specify to up to three remote TVs throughout your home. By simply changing the channel on a remote TV, you can choose between DVD, satellite receiver, off-air antenna or other video source.

CHANNELPLUS 3025 (PICTURED ABOVE)

#3000253 S&H \$18 \$249.95
