- Vibrant, full colour HD guide
- Stylish design with innovative, touch sensitive buttons
- Universal, learning remote control; also controls your TV

## Revolutionary

The HDS-600RS is a state-of-the-art Freesat+ HD digital television recorder. It combines Freesat satellite TV reception, digital recording, connected TV apps and TV anywhere.

## Versatile

Designed with convenience in mind, this exciting new product puts you in complete control of your digital entertainment experience.

Watch over 150 channels from Freesat. Access On Demand services and use the unique SlingLoaded® TV anywhere feature to watch your TV anywhere; on your Mac, PC or mobile device\*

The HDS-600RS is a fully-featured media entertainment centre, equipped with a high capacity 500GB hard disk drive as standard, it provides you with abundant space to store your favourite recorded programmes.

TV anywhere even allows you to set and view your digital TV recordings from anywhere - throughout your home, at work, on the train or on holiday. Your entertainment is available at the touch-of-a-button. iPhone, iPad and Android™ are amongst

the popular devices supported by downloading the SlingPlayer® Mobile app\* whilst Mac and PC users can watch using the Internet-based SlingPlayer®.

Interfaces including HDMI® and S/PDIF ensure seamless integration with an existing home entertainment system.

The unit offers user friendly access to features such as one touch record and series link, whilst an HD electronic programme guide (EPG) and SlingPlayer® Mobile\* ensure that all your live and recorded entertainment is at your fingertips, home or away.

## Easy to set-up

The SlingLoaded®HDS-600RS combines the experience of TV anywhere and the versatility of connected TV. Simply connect to your TV set and to the Internet via your broadband router, create a Sling account and you're ready to watch your TV anywhere. Watch TV online at [myechostar.com/watch](http://myechostar.com/watch).

## Want to watch TV or set and review your recordings from your mobile device?

Simply download the SlingPlayer® Mobile app\* to watch TV anywhere on iPhone, iPad, Android™ and other compatible mobile devices. See [myechostar.com/support](http://myechostar.com/support) for a full list of compatible mobile products.

## WATCH YOUR TV ANYWHERE ON IPAD, IPHONE & ANDROID™ MOBILE DEVICES\*

\* Requires broadband connection and the SlingPlayer® Mobile app - sold separately. See [myechostar.com/support](http://myechostar.com/support) for a full list of compatible devices.

To use TV anywhere you must connect your HDS-600RS to the Internet via your broadband router.

To view HD services, HD guide and upscale SD services you'll need an HD Ready TV set connected via HDMI®.

You can only watch your TV anywhere in standard definition; some connected TV apps may not be used with TV anywhere.
