DESCRIPTION

The DISH 381 is a standard definition DISH Network satellite receiver, with the added benefit of being able to view analog/digital (HD) over-the-air (OTA) broadcasts using the HD outputs.

FEATURES

- View DISH Network standard definition programming
- View analog and digital (HD) OTA broadcasts
- Display Resolutions: 480i, 480p, 720p, 1080i
- DISH Network SD programming is upconverted when connected to the TV using the DVI or Component video outputs
- Simultaneous output from HD and SD video connections
- Two sets of audio/video inputs
- Closed Caption support

FRONT PANEL FEATURES

- Buttons:
 - Cursor Up, Down, Left, Right, Cancel and Select navigation buttons
 - Power, System Info, Menu, and Info buttons
- Blue SATELLITE LED indicates satellite programming is being viewed
- Yellow OFF-AIR LED indicates OTA programming is being viewed
- IR blast and receive
- Smart card slot (unused)
