\* SatelliteGuys Celebrates Second Birthday & 25,000<sup>th</sup> Member Milestone!

On September 7<sup>th</sup> SatelliteGuys.US celebrated it's second birthday! As we look back over the past two years we find it amazing at how big and how quickly we have grown.

On September 8<sup>th</sup> (one day after our second birthday) we hit another milestone when we had our 25,000<sup>th</sup> member sign up for SatelliteGuys!

We are now the America's largest and most popular satellite information forum! A big thank you to everyone for making all of this possible!

If you have not been to SatelliteGuys in awhile a lot has changed we have added a bunch of new forum, including one of the Internet's largest forums dealing with the new hobby of FREE TO AIR Satellite Television, plus we have opened up a bunch of forums

dealing with Cable Television and Cable TV Technologies, plus we also have a large Home Theater / HDTV section with some of the friendliest and helpful folks around.

Also don't forget to check in and check out our CEDIA EXPO coverage! See the new products of tomorrow today first at SatelliteGuys.US!

Just in case you forgot your SatelliteGuys username it is \$username

We hope to see you soon!

\* New Subscription Service available from SatelliteGuys.US

As of September 1<sup>st</sup> SatelliteGuys.US has introduced a new subscription service to our members. This new subscription service not only helps us pay our bills but also gives you a few benefits

- 1) An almost ad free version of SatelliteGuys! The only ads you will see are the top banner ad and the listing of Gold Sponsors, no more Google Ads and no more IntelliTxt!
- 2) Full Access to all of our Pub Members Forums! Including the following...

· The Pub Members Bar & Grill – This is THE place where we post all the HOT rumors and news, before they are made public! This is a VERY active forum! (Only Pub Members can view this forum!)

· The SatelliteGuys Back Room – This is a special ADULT ONLY area where you can discuss adult topics; popular topics include adult services on satellite and reviews of adult movies and services. (Only Pub Members can view this forum! And you must be 18 or older to enter!)

Plus full access to other forums which only Pub members can post in.

The cost of membership is only \$19.99 a year. To subscribe just click on the DONATE button at the bottom of every SatelliteGuys page! Thank you for your support!

\* Dr Dish comes to the USA!

SatelliteGuys.US is proud to bring Dr Dish and his world famous Dr Dish@TV show to the USA! Dr Dish and internationally know journalist and is an authority on everything dealing satellites.

The Dr Dish@TV show is a 2 hour show packed full of Satellite News, Information and in depth equipment reviews. Check out our FTA section for show times. Dr Dish@TV airs via UONTV from the IA 5 (Former Telestar 5) Satellite.

\* Help Beta Test HDTV Streaming via NubaTV

Nubastream has brought new life to the internet with NubaTV, the first network to stream full-screen high definition quality video over the internet. Using NubaTV, members will be able to choose and watch their favorite television shows, sports, news, and movies when they want and not have to rely on network programming.

More importantly, the technology leverages the internet and television to create a participative television experience. Viewers can share thoughts and ideas with others from across the globe and see bonus features related to the programs.

To become an advisory member entitling you to discounts after their official launch in October, visit [www.NubaTV.com](http://www.NubaTV.com)

(Please note SatelliteGuys.US is not associated with NubaTV, we just think this is cool technology and another great use of the internet)

\* SATELLITEGUYS TIP from SatelliteGuys User MWGIII

(With each newsletter we are asking one outstanding SatelliteGuys member for a little tip to share with everyone to make their SatelliteGuys Experience even better, this month MWGIII was given the honor!)

Check the front-page everyday. The front-page gives you the latest big news and happenings.

Check your favorite member's latest posts. Click on that person's user name, then click on "Find all posts by XXX". I use this feature with Scott Greczkowski, Sean Mota, and other moderators. If you are in a hurry, this is the fastest way to catch important message threads. Very rarely is there an important thread on SatelliteGuys.us that Scott or Sean does not post in.

Did you know you can customize the forum lists? You can have SatelliteGuys only display the forums you want to see, to use this feature click on Customize Forum Listings or use this link <http://www.satelliteguys.us/index.php?e=1>

\* So you want to be a “Mad Scientist” by SatelliteGuys Staff Member Goaliebob99

(The following is written by SatelliteGuys newest staff member Goaliebob99, Bob is just one of many of our SatelliteGuys Mad Scientists, folks who make their Satellite Equipment do things that its not normally supposed to do.)

Does Dish Engineering say it can't be done? Well I say it can! Many people visit us here at SatelliteGuys.US are for our mad scientists threads.

Chances are if you're going for the 129 location on the SuperDish 1000 to the more simple things like adding a 5th location to a Dish Pro Plus 44 switch, SatelliteGuys has you covered. Some of the crazier mad scientists have even used a dish 500 to receive 110, 119, and 129.

For some this is just a hobby and for others this is a passion. Mad Scientists even extend out into other places of the forum. You can take a look at the FTA section and see us all go crazy with our multiple dishes that would have the local cable company's head end jealous.

So if you go driving around the country and you say to your self, “Is that an uplink center or is that a house?” Most likely it's a Satellite guy member doing crazy things on their rooftop. Chances are if you have 3 or more dishes with 5+ locations, face the reality you are a Mad Scientist and a red neck Satellite guy!

Where is the future leading our mad Scientists? Continuing on the unbeaten path of having the latest and greatest when it comes to new birds and up-linking, we will be there bringing you continuous coverage of it. Personally, I would lie to see is dish open up there beta program to dish customers across the country. We are the Unofficial Dish beta testers and there isn't a day that we haven't proved the engineers wrong. I'm sure there are plenty of non disclosure agreements that people are willing to sign. In the long run this will provide a better product for dish and earn them more money.

If you're wondering on how I can become a Mad Scientist, have no fear there's plenty of room for you. If you get stuck or can't figure something out give one of the fellow mad scientists a PM as we are more than willing to help. Most likely you will find them in the Dish or FTA forum. What ever this hobby takes our mad Scientists, there's defiantly more to come.

.....  
This concludes this edition of our SatelliteGuys Newsletter, if you have any ideas for future editions please let us know. We hope to see you soon at <http://www.satelliteguys.us!>
