# Unleash the Power of *XStreamHD*

Take Your Home Entertainment Experience to the Next Level with Unmatched Quality and Convenience

## Premium HD Delivered!

*XStreamHD* digitally delivers the highest-quality HD entertainment -- Full HD (1080p) video and up to 7.1 channels of lossless audio. It's unparalleled HD quality that fully utilizes the capabilities of your HDTVs and your sophisticated home theater equipment.

## Introducing Pre-Fetched Entertainment

Enjoy extreme convenience with *XStreamHD*'s Pre-Fetched Entertainment (PFE) technology, which automatically delivers the latest movies, music, and electronic games to your Virtual Personal Library based on your user preferences and advance selections.

## Enjoy HD Entertainment Anywhere

*XStreamHD* is the first true whole-home HD solution. One powerful *XStreamHD* Media Server simultaneously distributes multiple streams of Full HD entertainment across your home network, allowing your entire family to access the best HD anywhere in the home.

A whole-home solution that makes it easier than ever to enjoy the highest quality entertainment content—  
that's *XStreamHD*.

# Push Play. Get Swept Away.

## Full HD Multi-Room Entertainment Anywhere In Your Home

### Multi-Room Entertainment Made Better!

*XStreamHD* is the multi-room home entertainment solution that supercharges your entertainment network. Pause a movie in one room and continue viewing it in another. Because content is centralized on your networked HD Media Server, no duplicates or peer-to-peer copying is ever necessary. The HD Media Server delivers content to TVs equipped with a HD Media Receiver or a DLNA compatible client – i.e. DLNA Certified™ HDTV's, Blu-ray players and laptops. With *XStreamHD*, even your DLNA game console acts as a video client, accessing HDTV.

### Instant Access to Pre-Fetched Entertainment

Old-school video store rentals, mail order services and slow internet download services are out. Instant access to studio-quality HD entertainment is in. Step up to Pre-Fetched Entertainment (PFE) – the fastest way to access the latest Full HD releases sent directly to your *XStreamHD* Media Server's Virtual Personal Library. Thanks to PFE, you always have a store full of customized entertainment ready to enjoy in the comfort of your own home. With *XStreamHD*, you will never stand in line or be denied access to the latest entertainment!

### Advanced and Adaptive Network Video Recording

*XStreamHD* not only enables you to enjoy the best HD movies, music and games, but it also allows you to enjoy your favorite broadcast HDTV programs on your schedule. The *XStreamHD* Media Server includes a user friendly, sophisticated Network Video Recorder that is equipped with three HDTV tuners, enabling you to watch and record three separate off-air HDTV programs from start to finish, regardless of schedule changes, thanks to our patent-pending Adaptive Recording feature.

**SATELLITE TECHNOLOGY** *XStreamHD*'s transport network delivers a perfect copy of the studio master, made possible by patent-pending transport technology.

**SCALABLE STORAGE** The *XStreamHD* Media Server features two storage bays that can house up to 4TB of removable internal storage. Additional external storage capacity is available via an eSATA port.

**MASSIVE MULTI-STREAMING** One *XStreamHD* Media Server simultaneously delivers multiple Full HD content streams throughout your home to televisions equipped with an *XStreamHD* Media Receiver or any DLNA Certified™ device.

**RF ONE REMOTE CONTROL** Manage your HD entertainment with an ergonomic backlit RF One Remote Control, which leverages Zigbee Pro™ technology that requires no line-of-sight. RF technology enables you to page a lost remote control. The IR learning feature enables control of other A/V equipment.

**ADVANCED MENU NAVIGATION** *XStreamHD* provides you with an intuitive graphical user interface (GUI) that allows easy access to content from a 3D wall of entertainment titles. With Direct Alphanumeric Navigation, or DAN, quickly locate specific content using the alphanumeric keypad on the RF One Remote Control.

**XSTREAMHD CALLING** Stay in touch with friends and family with free in-network calling. Enjoy enhanced phone features, including multiple voicemail boxes accessed through your TV or computer, interactive voice response (IVR), and multiple phone extensions.
